N/A

We present this genuine opportunity to purchase this well-located townhouse in Rojasles at an affordable price. It is semi-renovated: the electrical and plumbing systems have been replaced and the bathroom has been completely modernised. In addition, new double-glazed windows have been installed throughout the property. Only the kitchen and walls remain to be finished, which has allowed to adjust the price and leave these details entirely up to the buyer. There are two bedrooms, a bright living/dining room, kitchen and patio. It is located in a residential area, where there is usually parking available, close to shops, bus stops, schools and just a few steps away from the wonderful Peder. (Ask for More Details)
