This stylish villa in Jávea combines modern architecture with plenty of living space and a particularly strong focus on the Mediterranean outdoors. The house is spread over two floors, which are internally connected, creating a practical separation between the different living and sleeping areas. On the upper floor there is a spacious and bright living area. Large windows provide plenty of natural light and enhance the open, modern character of the home. From this floor there is access to a large private terrace, a nice extra outdoor space with an open view of the surroundings. There are also bedrooms and bathrooms, decorated in the same quiet and contemporary style. The built in cupboard. (Ask for More Details)
